wall art

Dibond is a thin sheet of metal laminate that looks really cutting edge. Images mounted onto this product will look sleek and very professional indeed. All finished dibond art is presented with an aluminum sub frame, ready for hanging. Giclee images are carefully colour managed by our experienced technicians with outstanding finished results.

MDF / Blockboard - Images are mounted onto blockboard in varying thicknesses (although we recommend 12mm). We can apply black paint to the edge rim to create sleek stunning art panels. Once mounted flush to the wall with a key hole hanging system, they'll enhance any living space.
