

Genie Imaging

Genie Imaging, established in 1987, is a London based photographic and digital imaging laboratory. We have always been at the forefront of digital imaging and work closely with professional photographers and keen amateurs.

We process both E6 and C41 on a dip and dunk machine. It is a fully monitored service and Genie has been processing film successfully for the last 20 years! B&W film is processed by hand. Films are then cut and sleeved.

When you mail us your films please drop us a line at orders@genieimaging.co.uk to let us know it is on its way!

We are here from 0800 - 2000 hrs Monday to Friday. Call us if you have any difficulties on 020 8772 1700.
